

Global integrated observables of constant-density models

● homogeneous ■ large-scale × small-scale

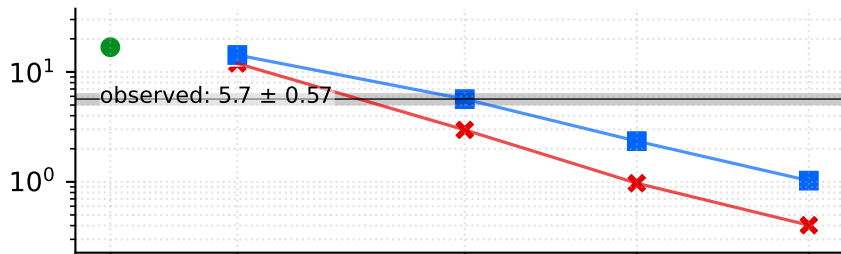

a

O II $\lambda\lambda 4651+$ / H β

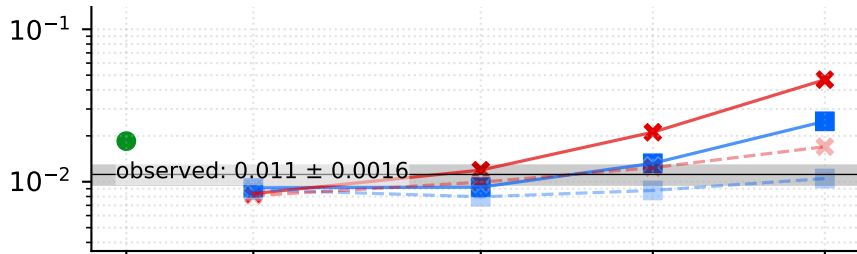

b

[O III] $\lambda 5007$ / H β

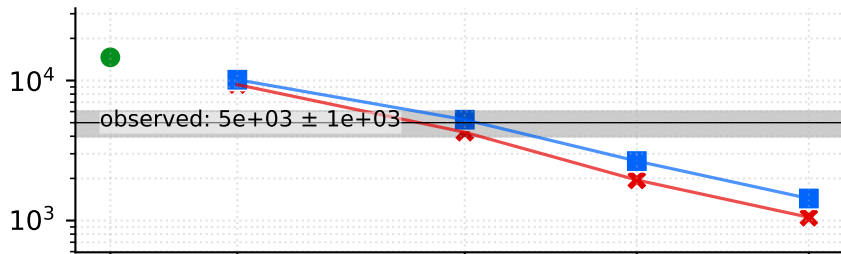

c

[O III] $\lambda 4363$ / 5007

d

Mean H α -weighted T_e

Amplitude of metallicity fluctuations, Z_{\max}/Z_{\min}
